**BOND ISSUE TO  
BE SUBMITTED  
TO CITY VOTE****City Commissioners to Ask De-  
termination of People on  
Improvements****WANT MOTOR FIRE TRUCK****Incinerator for Disposing of  
Garbage and Pest House  
Repairs Included**

An election will in all probability be held in Bismarck early in June on the question of a bond issue for the purpose of purchasing a fire truck, an incinerator, and remodeling of the detention hospital.

Members of the city commission, at informal discussions, have reached the conclusion that these improvements to the city government facilities ought to be made. It is probable that the commission will reach a decision Monday night.

A. P. Lenhart, president of the commission, said today that it appeared to commissioners that it was highly necessary to have modern fire-fighting apparatus in the city to insure proper fire protection. Such apparatus, he said, would more than pay for itself within a short time in the saving of insurance costs.

**Detention Hospital**  
The city detention hospital is admittedly unsatisfactory and can only be made so by the remodeling of the building, Mr. Lenhart said. There is complaint voiced against the dumping of garbage south of the city and the only solution to this question was a modern disposal plant, Mr. Lenhart said.

Under present conditions the only way in which funds can be obtained to provide the facilities is a bond issue. Mr. Lenhart said, and the commissioners believe the matter ought to go before the citizens for determination.

C. W. Henzler, commissioner of fire and police, declares that the city ought to waste no time in obtaining a modern motor fire-fighting machine, one which is so constructed that the engine may be used as a fire engine to increase pressure.

It is estimated that it would cost between \$10,000 and \$15,000 to provide the fire apparatus, upwards of \$5,000 to remodel the detention hospital and a few thousand dollars to provide an incinerator.

H. F. O'Hare, city attorney, has advised the commission that 20 days' notice ought to be given. There are conflicting laws on time necessary. It is probable the election will be held in the forepart or about the middle of June.

**BISMARCK GETS  
LABOR MEETING****Federation of Labor Votes To  
Hold Next Convention  
Here**

Bismarck was chosen as the place for the next convention of the North Dakota Federation of Labor at the concluding session of the Fargo convention.

Lee C. Brundage, of Minot, was unanimously re-elected president. N. M. Aune, of Grand Forks, was unanimously re-elected secretary-treasurer. Other officers elected were: Vice-presidents, mine workers, George Coles, Wilton railroad workers, Lloyd Wootthart, Williston building trades, E. J. Jensen, Fargo, mixed trades, Frank Milhollan, Bismarck; women workers Mrs. Margaret Froats, Grand Forks.

**NINE DIE AS  
SHIP BURNS**

Seattle, Wash. May 4.—Nine persons are believed to have lost their lives in the burning yesterday of the Japanese steamship Tokio Maru, off Cape Mearns, Oregon, according to wireless messages today from the United States army transport Buford.

**WINS ELECTION  
FROM HUSBAND**

Red Spring, N. C., May 4.—Mrs. Beatrice Bullock, candidate for alderman in the town election, yesterday defeated her husband, G. C. Bullock, who was candidate on the opposition ticket by four votes.

**EXPRESS COMPANY  
TO CUT WAGES**

New York, May 4.—The American Railway Express Company announced here today it had notified its 80,000 employees that it contemplated a reduction in wages effective June 1.

**RUSH FOR GOLD  
IS CONTINUING**

Ottawa, May 4.—The reported discovery of a gold vein in the vicinity of Kambazua, Gaitaneau district, Quebec, continues to attract residents of Ottawa. Many more left for the district today to stake claims. Experts were dispatched to investigate the strike.

**BOY ON TRIAL FOR \$772,000 THEFT**

Sixteen-year-old Willie Dalton (left) is on trial, in Chicago, charged with the theft of \$772,000 in Liberty bonds from the Northern Trust Company last February. The man who caught Dalton at Heworth, Ill., got a reward of \$25,000.

**FINNEY HEADS  
ROTARIANS FOR  
ENSUING YEAR****Installation of Officers Takes  
Place at Weekly Meeting  
Today****REPORT ON CLUB'S WORK**

Dart Finney was named president of the Bismarck Rotary club by the directors of the organization and together with the other officials was installed to succeed F. L. Conklin the first president of the club and who has made an enviable record in getting Rotary on its feet in the Capital City. Other officers installed were:

Clyde Bonham, treasurer; Ray Bergeson, secretary, and Carl Nelson, sergeant-at-arms.

Mr. Bergeson is renamed secretary and his services were especially efficient and came in for special praise. When the matter of a Rotary club was broached for Bismarck, Mr. Bergeson did much of the preliminary work.

There was a general report on the work of the club which has many praiseworthy ventures to its credit. Among them are the Christmas good-fellow work, the Father and Son banquet and the drive for the boy welfare work just successfully completed. In addition the club has been well advertised through the trip to Fargo and the spirit of service has been instilled through the weekly luncheons.

Mr. MacLeod of Canada is expected to arrive and take hold of the boy welfare work as soon as some technicalities in reference to the immigration laws are complied with.

There were several guests of honor at today's luncheon. Mr. Dickinson C. H. Christensen of Ryder, Bradley Marks, Fargo and Judge Hanley of Mandan.

Mr. MacLeod responded to the greeting of the club by wishing it the best of success and looking in the opportunity to greet again his old associates.

The wish of Judge Hanley it is hoped will assist in starting a Rotary across the river.

**START TICKET  
SALE FOR BIG  
ELK MINSTREL**

Tickets went fast for the Elks minstrel show when they were placed on sale at Harris and company today. The demand was about equally divided between the Friday night and Saturday night performances. There are still many good seats left but those holding tickets are urged to reserve them as quickly as possible.

Here's what the captains proposed:

Keep him in jail all over until 10 to Thursday afternoon. Put him on exhibition in a window in A. W. Lucas and company store Thursday afternoon and evening. Take him out at 1 o'clock Thursday night turn him over to the F.B.I. and move him in a big cage to a lot north of the Auditorium. Have a big bonfire and burn him.

**JURY DISAGREES  
IN BOY'S CASE**

Chicago, May 4.—The jury in the case of William Dalton, 16-year-old flunk clerk who stole \$772,000 worth of Liberty Bonds from the Northern Trust Company recently disagreed and was discharged today after it had deliberated almost 24 hours.

**JOIN HANDS IN  
PLANNING ROAD  
WORK TO BRIDGE****Morton and Burleigh County  
Engineers Study Plans**

Plans for highway approaches to the new Bismarck-Mandan bridge are being worked out by Black and Griffin, engineers for Mandan and Morton county and T. R. Atkinson, engineer for Bismarck and Burleigh county.

It is hoped by the engineers and officials to make the highways to the bridge conform as much as possible. The proposed road from the end of Main street, Mandan, to the bridge would be about 11-2 miles in length. There is a big fill that has to be made across low land to the bridge approaches on the Mandan side. It is hoped by Morton county officials to pave the road this year.

There is some doubt as to what solution the Morton county commissioners will adopt for their problem. It has been suggested that the concrete approaches of the bridge be continued, instead of making an earth approach. If this were done the entire cost would be so large that the commissioners could not build the road this year.

The road to the bridge on the Bismarck side will be 14 feet in width, with a place on the north side of the walk for a sidewalk. Surveys have been completed and specifications are being prepared. The paving on the Bismarck side including the paving from the east end of Main street to the state prison would be about 2-3 miles.

**BORAH PUSHES  
DISARMAMENT**

Washington, May 4.—An impending fight in the senate against the administration's desire to defer consideration of naval disarmament proposals was forecast by the introduction by Senator Borah, Republican Idaho, of his resolution to authorize and request the president to call representatives of Great Britain and Japan in to a disarmament conference.

**LEADER OF "KNOCKERS GANG" IS  
CAPTURED; BIG PUBLIC BURNING  
SCHEDULED FOR THURSDAY NIGHT**

The arch conspirator of the "Knockers Gang" has been captured. The capture was effected today through Chief of Police Chris M. Nelson and a big bunch of volunteers who served with him in searching the city during the last few days. The Bismarck Workmen's Union is the "Knockers Gang."

Here's what the captains proposed: Keep him in jail all over until 10 to Thursday afternoon. Put him on exhibition in a window in A. W. Lucas and company store Thursday afternoon and evening. Take him out at 1 o'clock Thursday night turn him over to the F.B.I. and move him in a big cage to a lot north of the Auditorium. Have a big bonfire and burn him.

**TOURISTS WILL

MORE THAN EVER****Reports to Jamestown Meeting  
Show 50 Per Cent Traffic  
Increase Expected****ASK HIGHWAY KEPT UP****Unless Work is Done on Red  
Trail it Can't Stand Traf-  
fic, Reports Say**

Boards of county commissioners in all counties through which the Red trail passes are to be appraised of the fact that the number of motor tourists over the Red Trail this year is expected to increase 50 per cent over last year.

Bismarck men, who returned today from Jamestown where the North Dakota section of the National Parks Highway (Red Trail) held a meeting, outlined the efforts of the organization.

**Camp Sites Along Way.**  
Correspondence already received from the east, they said, showed that the auto travel would increase wonderfully this year and each North Dakota community has the task of aiding these tourists. Unless the counties maintain the Red Trail during the summer it will not be able to stand the heavy travel. Reports made showed that county commissioners in all counties had directed much study to improving the highway.

There will be camp sites in all towns from Fargo to Beach this summer. The camp sites will be bulletined at tourists headquarters at the Twin Cities, Chicago and eastern points.

**Endorse Park Plan.**

The organization endorsed the proposal to establish Roosevelt National Park in the pebbled forests of the Bad Lands. F. W. Turner, of Dickinson, was re-elected president of the organization. Other officers chosen were: vice president, Jay White, Fargo; executive secretary, G. N. Keniston, Bismarck; directors, Jay White, Fargo; P. F. Derringer, Dickinson; D. C. Rand, Jamestown; county directors, Cass county, C. P. Chestnut, Fargo; Barnes J. Pegg, Valley City; Stutsman, E. H. Horton, Bismarck; Kidder, E. A. Anderson, Steele; Burleigh, J. C. Anderson, Bismarck; Morton, H. A. Countryman, Mandan; Stark, H. A. Dickinson, Dickinson; Billings, Walter Ray, Medora; Golden Valley, M. Mattison, Beach; J. C. Anderson, of the LaRue Motor Sales company, Bismarck, who was chosen Burleigh county director, was one of the leaders in the establishment of the splendid camp site at the penitentiary grounds here, which was used by hundreds of tourists last year and has been one of the county's most active boosters for the Red Trail.

**HARDING RAPS  
TENDENCY TO  
EXTRAVAGANCE****Tells Government Departments  
They Must Live Within  
Means**

Washington, May 4.—President Harding launched a drive today against what he termed the "dangerous tendency" of government departments to live beyond the means provided for them by Congress and submit requests for deficiency appropriations to cover deficits.

In identical letters to cabinet members the president called attention to the fact the bills calling for approximately \$216,000,000 in deficiency appropriations are now pending "and that the estimated deficiency will run very much beyond that sum."

INVITATION TO  
ALLIED COUNCIL****Decision is Withheld Pending  
Receipt of Formal  
Invitation****MAY SEND AN "OBSERVER"****This Course Was Followed For  
a Time By the Nations**

Washington, May 4.—Decisions as to American representation on the allied supreme council and the reparations commission was held in abeyance today pending receipt of the invitation from the allied governments.

Before discussing the question in any way state department officers preferred to await the official text as the extent of the desired American participation in the whole reparations controversy has not yet been clear. In some administration quarters to day expression was given to a doubt that the United States would consent to formal representation on the supreme council but it was suggested that it was possible that an unofficial observer would be named to sit in at the sessions.

It was pointed out that the United States was virtually interested in the reparations settlement and it was said the government decided to get all possible information as to the successive steps undertaken or contemplated. An unofficial observer would be able to keep the administration fully and promptly informed. This course was followed for a time with reference to the conference of ambassadors.

**AGREE ON ULTIMATUM**

London, May 4.—The supreme council reached an agreement yesterday afternoon on the substance of the ultimatum to be sent to Germany by the reparations commission not later than May 6. The ultimatum expires six days later. The total sum which Germany will be called upon to pay has been increased to 6,750,000,000 pounds sterling by the inclusion of the sum due Belgium on account of her debts to the allies.

**SOLDIER BONUS  
LOAN SHARK TO  
BE LAST PAID****General Fraser Makes Rules in  
Payment of North Dakota  
Compensation Claims****MANY COMPLAINTS MADE**

Many reports of the assignment of soldiers bonus claims at excessive rates of discount are being reported. Adjutant-General G. A. Fraser said today. General Fraser reiterated the statement he made in Fargo Monday to the effect that every claim which he found had been taken from a soldier by a "shylock" at an exorbitant discount could be deferred to the last payment, which may not be made for some years.

"Reports are coming in every day that persons are discounting the soldiers bonus claims at rates as high as 50 to 100 percent, and the purchasers of these claims are notified that under the clause of law which gives the Adjutant-General authority to grant priority to claims, that every unassigned claim will be paid prior to one in which it is discovered excessive discounts have been made," said General Fraser.

"The assignees who have taken claims to assist the boys may rest assured that they will be protected, but those persons who are buying claims at large discount will be paid after every soldier has received his money. The order number will have no bearing on the date of payment."

The first case brought to public attention was that of Norman Erickson, who served in France and was awarded the Croix de Guerre. His bonus claim amounted to \$670. It would be paid in the regular course of business not later than April 1, 1922.

A Fargo man offered to purchase his bonus for \$150.

**Federal Court Meets  
at Jamestown May 17**

Jamestown, May 4.—Deputy U. S. Marshal John Trotter was in the city today and acting under instructions from Judge Woodrough, adjourned the regular term of federal court which was to have been begun in Jamestown today, until Tuesday May 17. Jamestown has had only one term of the federal court, presided over by Judge Amidon, and it is possible that the next term will be held by a new judge, who is expected to be appointed for the district of North Dakota, according to a bill which was recently introduced in the U. S. senate for that purpose. Judge Amidon is still out of the state and Judge Woodrough of Omaha will not be able to hold the spring terms of court for Judge Amidon.

**GRADE FIGHT  
TO HIGH COURT****Attorney General Expected To  
Appeal Decision of U. S.  
Court**

The decision of the United States Circuit Court of Appeals in St. Paul yesterday in holding the North Dakota grain grade act unconstitutional will undoubtedly be carried to the United States Supreme Court. William Lemke, Attorney-General was not in Bismarck but it is the general sense of opinion at the capital that this action will be taken.

The case was originally started in the federal district court in Fargo by the Embden Farmer Elevator company. The law was found constitutional by Judge Amidon whose decision now is reversed.

The federal court held that the state was without power to enforce the law because there is a federal grade law in the state.

London, May 4.—A state of siege was declared in Upper Silesia as a result of the disorders following allotment of the coal fields to Poland.

Oppeln, Upper Silesia, May 4.—(By the Associated Press).—Organized Polish forces estimated at 20,000 have occupied all of Upper Silesia south of a line running from Kosel to Tarnowitz with the exception of a few large towns and are moving further northward, according to information supplied by a member of the inter-allied representation.

Warsaw, May 4.—(By the Associated Press).—The insurrectionary movement in upper Silesia has spread rapidly. According to newspapers a Polish civilian fighting organization occupied Katowitz and other towns after a three day encounter with the Polish troops.

Newspapers last evening reported eight Poles killed and 16 wounded in the Katowitz region in clashes with the Germans in which the Poles attempted to gain control of the districts bordering on the Polish frontier. For a time the Poles were in power in these districts but the inter-allied commission intervened and quiet was eventually restored.

Upper Silesia, in a recent plebiscite, voted for German rule.

**DIVORCE CASE  
OF STILLMANS  
IS CONTINUED****Secret Hearings Are Held In  
Banker's Case Against  
Wife**

New York, May 4.—James A. Stillman, who yesterday resigned the presidency of the National City bank, today resumed in the first of a series of secret hearings his fight for divorce from Mrs. Anna U. Stillman.

Several French-Canadians from Three Rivers, Quebec, site of the Stillman summer camp, are here for the hearing.

It was announced that witnesses summoned by counsel for Mrs. Stillman in her counter charges of infidelity will be called to testify at a later hearing.

ness Men on California  
Matter**

Cleveland, O., May 4.—Differences between the United States and Japan "call for adjustment but their existence does not justify apprehension or pessimistic forecast," Baron Shidehara, Japanese ambassador, today told the Cleveland Chamber of Commerce.

Regarding the question of Japanese immigration to California, he declared that "Japan claimed no rights." "She only asks for her nationals lawfully resident in this country that just and equitable treatment which is in line with the fine traditions of the American people."

**HALF PRINTING  
SHOPS SIGN UP  
ON NEW BASIS**

Indianapolis, Ind., May 4.—Officers of the International Typographical Union say that 240 local unions of printers in job and book printing offices of the country have signed 44-hour week agreements. J. W. Hays, treasurer, said this included one-half of the membership of the union.

Chicago, May 4.—The arbitration board whose decision affects the livelihood of some 12,000 members of the printing trades in Chicago today announced a reduction of \$4.35 a week for each of the four major crafts.

Grand Forks, May 4.—Three Grand Forks job printing shops which closed Monday when printers, binders and pressmen struck are operating today. Men recruited from office forces are doing the work.

Fargo, May 3.—The printing strike situation remained unchanged here today with 30 compositors and about 10 apprentices out. Pressmen had continued work but had not signed 44-hour contracts, according to officials, while employing publishers said the pressmen had signed such contract.

# DO YOU KNOW— Your Grocer?

*This* is "Do You Know" — Week — in Bismarck—arranged for the purpose of acquainting the people of Bismarck with its business and manufacturing firms, as well as what Bismarck had to do to make it the city which it is and to encourage its people to form closer business relations with firms who are doing business in our city, and especially the "Retail Grocery" firms.

## DO YOU KNOW—YOUR GROCER

We have in Bismarck, a live and progressive set of "Retail Grocery Stores," Proprietors, who are selling a complete line of choice groceries, seasonable fruits and vegetables, and everyone of them make it a particular part of their business to always carry in stock the best lines that are placed on the market.

## DO YOU KNOW—YOUR GROCER

These retail grocery store proprietors are very loyal to the wholesale houses in Bismarck, for they make it a point to buy their goods from them for the reason these wholesale houses are located here for the purpose of helping to build up our city and outside territory. By having wholesale houses at our door, enables the people of our city to buy food supplies from our local retail grocery dealers at prices far below what they would have to pay if the retail grocer dealer had to have all his groceries shipped in from far away wholesale houses.

## DO YOU KNOW—YOUR GROCER

Every retail grocery store proprietor, is sell-

ing to the people of Bismarck, food supplies at very low prices at all times and whenever there is any price change in the wholesale market, the retailer groceries in our city, immediately reduce their prices to all customers.

## DO YOU KNOW—YOUR GROCER

Every dollar spent with your local retail grocer, means more money circulated at home, more people employed, promotes expansion, helps build taller buildings, widens out our city, adds to population and makes a more pleasant city to live in and bring up your family.

## DO YOU KNOW—YOUR GROCER

Every retail grocery store proprietor in Bismarck, stands for honest and fair dealings, and when they tell you about any particular brand of goods as to quality and price, you can depend on what they tell you is the truth. He is in business to serve the public on sound principles; he has money invested; he may own his store or home buildings; he is helping to build up Bismarck and working for the best interests of his customers.

## DO YOU KNOW—YOUR GROCER

That you can buy food supplies from your local retail grocery stores at prices lower at all times than a great many other cities are selling groceries for.

### TOM MIX IN "REEL" THRILLER AT BISMARCK

When Tom Mix takes final leave of his beloved horse, which he is forced to shoot when rendered useless by a severe wound inflicted by Mix's villainous pursuers. This is an extraordinarily pathetic scene, emphasizing eloquently Tom Mix's love to "mark" best friend in the animal world.

When Tom Mix and Sid Jordan engage in a fight to the death in the deep snow of the wilderness, each armed with a knife. This battle, which required half an hour to film, is one of the most realistic and hair-raising ever seen in a motion picture.

When Mix, attacked in a cabin by a gang of fur thieves, attempts to escape by the window and his gun is caught by the window frame, preventing his egress. This scene included a battle by Mix against tremendous odds, and calls for every fight stunt and expedient of which Mix is master. It is a marvel of skill and physical prowess.

## GIRLS VICTORS IN CONTEST ON IMPROVING CITY

All Three Prize Winners in Town Criers Contest Are Girl Students

Prize winners in the high school in the Town Criers essay contest on Bismarck, My City—What I Like About It and How I Think It Can Be Improved, were announced today.

They are: First prize, Mabel Larson, sophomore; second prize, Faye Le Barron, junior; third prize, Emily Olson, sophomore. The prizes are \$5, \$3 and \$1 respectively.

Three hundred and sixty high school students, both boys and girls, wrote essays the girls capturing all prizes, in the opinion of the judges, who were Spencer Boise, A. S. Bolster and H. L. Dobler.

Prize winners for the contest in the Junior High School were announced yesterday.

Miss Le Barron who won second prize in the high school contest, lives in Regan, and her appreciation of Bismarck and suggestions for improvement were highly thought of by the judges.

## 'MILESTONES'

How the old order changeth is vividly portrayed in "MILESTONES" the new Goldwyn picture which comes to this theatre tonight and tomorrow.

The story is told in three different periods 1860, 1885, and 1910. And the fortunes of the Rhead and Sibley families are traced through those periods. In the first there was old Richard Sibley (Lionel Belmore) deriding modern progress and laughing at crestfallen John Rhead (Lewis Stone), who tells him that iron ships will be the next thing John's sister, Gertrude (Alice Hollister) is engaged to Sam Sibley (Harvey Clark). Sam too is opposed to the idea of iron ships and backs his father in refusing money to Rhead for the project.

And in 1910 the project is carried out to success and then, well, —come and see for yourself.

## 61 STEER TO BE USED FOR EXPERIMENT

Howard Seaman has sixtyone head of steers at Solon which he purchased for the University of North Dakota to be delivered to the Great Plains Experimental Station May 10. These animals will form the basis for a crop grazing experiment carried on by the Great Plains Station in co-operation with the State Experiment Station at Fargo.

This will be the sixth consecutive season for this work conducted to test the carrying capacity of the native grassland, and is a source of particular interest to local dairymen and stock farmers.

### VISITS IN MANDAN

Mrs. James Fitzsimmons visited in Bismarck today between trains.

### GUESTS AT BISMARCK

Mr. and Mrs. Henry Dahners were the guests of Bismarck friends Tuesday.

### BISMARCK VISITOR

Mr. Churchill of the Lahr Motor Sales spent Monday in Mandan on business.

### BRINGS IN PATIENT

Dr. Leavitt of Carson motored in Monday evening, bringing with him a patient for hospital care.

### LEAVES FOR CHICAGO

Mrs. J. H. Newton left Sunday for Chicago, where she will spend several weeks with her daughter, Mrs. Charles Heister.

### EN ROUTE HOME

Mrs. M. C. Smith and little daughter Patricia are Mandan visitors today, en route from Bismarck to their home at Sanger.

### VISITING IN CHICAGO

Mrs. A. T. Faber and sons left Monday for Chicago and will spend the summer with Mrs. Faber's sisters, who are residents of that city.

### LEAVE HOSPITAL

Mrs. L. C. Muschik and baby girl of Mandan and Myrtle Anderson of the State Training school were discharged patients from the Deaconess Hospital today.

### TO TWIN CITIES

Mrs. B. S. Nickerson leaves Wednesday on No. 2 for Minneapolis, where she will make a short visit with friends. Dr. Nickerson, who has been attending clinics there for a fortnight will return with her.

### ENTERS OFFICE

Monday, May 1, a change in County Treasurer's office was effected. "Bill" Ellison entered into his new duties. Mr. Ellison has not as yet announced his choice of a deputy, but the rest of his office personnel will remain unchanged.

### PREPARES FOR HOSPITAL DAY

The Mandan Deaconess Hospital Corps is busily preparing for National Hospital Day, which occurs May 12. They will keep open house and also have a "Tag Day." Public spirited citizens who are vitally interested in the future of the hospital have offered the use of their cars for free taxi service during the day.

### ESTABLISHED RECORD

A. H. Nelter, a member of the Bismarck Country Club and well known to Bismarck and Mandan golfers, realized the highest ambition of every golfer last week, at Minneapolis, when he made the second hole at the Golden Valley Golf Club in one stroke. The Minneapolis Journal of Monday contained an account of his exploit, which is one that some of the "big boys" have not equaled.

### Class Play

On Friday evening, May 13, the class of 21 will present their senior class play, at the Palace theater. The production which is cleverly cast, is under the dramatic direction of E. W. Peterson with Mr. Bonde, head of the commercial department, as manager. It is evident from the date chosen—Friday, May 13—that the class of the year is too progressive to harbor any old-fashioned superstitions.

### CLOSES SEASON

The last meeting of the Fortnightly club to be held this season took place Tuesday afternoon at the home of Mrs. B. S. Nickerson. Its retiring president, There was election of officers for the next year as follows: President, Mrs. J. A. Biggs, Vice President, Mrs. Walter Hecker, Secretary, Mrs. Harry Thorberg, Treasurer, Miss Mary McGillic.

Various reports and business coming before the club were disposed of and the recommendations of the Program committee for the next yearly program adopted. The study of American Literature with a text and also some of the "Moderns" is the work projected.

After the close of the business meeting a lovely luncheon was served by Nickerson and the club was adjourned until the first fall meeting.

**To Visit Mother**  
Mrs. Hal Parsons and children departed Sunday for Jamestown, where they will visit for the summer with Mrs. D. S. Littlehales, the mother of Mrs. Parsons.

**To Give Communion**  
Reverend Dewhurst of Bismarck will give Holy Communion Thursday morning, May 5, at 8 o'clock in the Christ Episcopal church. There will be suitable music for the occasion by the choir.

**Break Ground**  
First ground was broken today for Mandan's new apartment house at the corner of Fifth Ave and First St. An early completion of the building is hoped for, since this is one of the town's greatest needs.

**Home Talent Play**  
The "Camp Fire Girls," under the direction of Miss Naomi Anderson, will stage a home talent play in the High School gymnasium, Friday evening, May 6. The little play, "Molly Malone," promises to be most entertaining.

**Marriage Licenses**  
Marriage licenses were issued from the County Judge's office the first of the week to:

Mike Messmer and Rose Treive, both of Mandan; and Louis Perman of Glen Ullin and Mollie Goetz of Blue Grass.

**To Attend Function**  
Mrs. Roy Countryman left last week for Chicago to attend the State convention of the White Shrine of Jerusalem, which will be held there May 9, 10 and 11. Mrs. Countryman will stop in St. Paul and Minneapolis on her way for a visit with relatives.

**On Southern Tour**  
Dr. and Mrs. A. O. Henderson will leave this week, to be gone some weeks. Mrs. Henderson will spend some time with friends in various Wisconsin cities and the Doctor will go on to Louisville, Kentucky, where he will sit as a delegate in the meeting of the General Grand Chapter of the White Shrine.

**Honor Guest**  
H. C. Wilson, of Chicago, who has been in Bismarck this week as instructor at the Sunday School Institute of the Methodist Episcopal churches, was an honored guest at a dinner at the Lewis and Clark hotel Tuesday night. Among the guests were R. S. Johnstone, President of the Merchants National bank; Fred Mason, of the Great Plains Station; Reverend Thatcher; Mr. Leonard, the local architect, and several gentlemen who formed the building committee for the new Methodist church. Mr. Wilson is head architect for the Methodist church, and as a few small changes in the present plans have been found necessary, he will return to Mandan again next Saturday, at which time he will give an address in the Methodist Tabernacle.

**AT A MOTHER'S MEETING**  
The wife of a noted New York divine said to her listeners, "Watch carefully your daughter's physical development. Mothers should keep their daughters well informed as to matters pertaining to health, and should see that nature is assisted, if necessary, to perform its offices."

Irregularities and pain are warning symptoms of some trouble, and mothers may depend upon Lydia E. Pinkham's Vegetable Compound to correct them, and restore the system to a healthy, normal condition. —Adv.

## JACKIE COOGAN IS REGULAR SPENDER; GIVES MA A CAR; PA A RAZOR!

BY MARIAN HALE  
New York, May 4.—"I'm not going to stick at this game long," Jackie Coogan remarked as he sat in his suite in the Biltmore.

"The movies are all very well for children," said Charlie Chaplin's \$2,500-a-week co-star. "It suits their tender years; the movies are an almost childish art, aren't they?" this six-year-old inquired abruptly.

"Then I'll tell you, secretly," he continued, "I am not going to stay in comedy all the rest of my life. I intend to go in for the heavy. I wish to portray mental and physical anguish."

**Pardon a Smile**  
The writer looked over at his mother as he spoke, and slowly the two winked at each other.

"How do you account for your phenomenal success, Jackie?" his mother asked, for the benefit of the reporter.

"I think my father is to blame; he has always let me copy his antics; it gets in the blood, and then the public begins to pick up its ears, and sooner or later you are 'discovered' and there you are!"

"And just what are you going to do when you are 20, Jackie?"

"I am going to sit back in a nice bungalow by the sea with Patsy Marks."

"And who might Patsy Marks be?" I inquired.

"She is my sweetheart," Jackie answered. "I think you should marry only a girl you know since the beginning, like me; we made beginnings together, as it were; she's just a little younger than I, but a bird. I am very given to buying her luxuries," he added.

This drew forth a laugh and Jackie got to his feet.

**A Real Spender**  
"I tell you I'm a spender. I bought my mother a car and my father a razor and Patsy a pair of pink bloomers and a handbag, and all I get myself is three dollars. That is all my father gives me of my pay."

"But dear, who has a bank account in his own name?" Mrs. Coogan put in.

"Oh, I do, but I'll be so tired before I get to spend it," Jackie sighed.

"And what is your advice to little children who want to act?" Jackie considered.

"If you are a boy, it's important to know how to chew, smoke, spit and cry. But the real big piece of advice

## Prospective Mothers who prepare carefully with Mother's Friend make Child-birth easier.

It is recorded of the primitive American Indian women that child-birth with them was entirely painless.

Modern dress was unknown!

Exact social duties that wreck so many women of today were a minus quantity in their lives; and so it is small wonder that the weaker sex becomes a prey to misgivings when approaching maternity nears the crisis. But this should not be—because

—the prospective mother can find comfort in MOTHER'S FRIEND. An external lubricant that spreads its influence over the skin; penetrates to the broad, flat abdominal muscles, and prepares the way for an easier, quicker and practical delivery.

Many doctors and nurses recommend MOTHER'S FRIEND. Get a bottle from your druggist today.

And get more genuine chewing satisfaction, when you use this class of tobacco.

This is because the full, rich, real tobacco taste lasts so long, you don't need a fresh chew nearly as often.

And a small chew gives more real satisfaction than a big chew of the ordinary kind ever did.

Any man who uses the Real Tobacco Chew will tell you that.

## BRUNSWICK TIRES

BEHIND every leadership stand a purpose and an ideal. So Webster—statesman, orator, upholder of the Constitution—had his ideal, "Liberty and union, now and forever, one and inseparable."

The Brunswick Tire is built with a purpose as definite—with an ideal equally sincere.

That purpose is—dependability in actual road performance.

That ideal—highest quality best workmanship, longest mileage.

Let your next set of tires be Brunswick. Keep a close record and compare it with any other. Or try one tire. One will be enough to convince you.

## MUSIC CLASS IN RECITAL

During the month of May Mrs. Emma Wheeler will present her classes in piano recital. The first program will be rendered by boys from 7 to 13 years. The program will be given in the auditorium of the high school building at 7:30 P. M. The public is cordially invited to all recitals given by the classes. Mrs. Wheeler states that a silver offering will be taken up to go toward a fund kept by the classes for various civic purposes. It will be interesting to note some of the activities carried on by the classes during the past eight years: such as, \$55 for books to the school library; \$45 to the McDowell League; \$200 to the Red Cross fund. The "Musical Monitor" is kept on file in both the high school library and the Bismarck Public Library.

Notices of the various recitals will be given in the Tribune during the month.

**J. L. BELL TALKS ON THRIFT**  
Before the Business and Professional Women's club on Tuesday evening, J. Leonard Bell gave an address on "Investment for Business Women." Mr. Bell was able to bring a sound method of saving and investment before the assembly and much appreciation was expressed by the members and their guests for the excellent address.

Mrs. Overt Olson read Kipling's "Mother o' Mine," and "The Influence of Small Things." In the spirit of "Do You Know?" week in Bismarck, Miss Julia Weber, stenographer for the Provident Life Insurance company, gave a four-minute talk on "Know and Don't Knock" your town.

This was a most finished effort and the young business woman received hearty applause.

It was arranged during the business meeting last night to have a get-together dinner at the Grand Pacific

## PREACHING BY WIRELESS

If you had been in the Wolaston (Mass.) Congregational Church Sunday morning you'd have noticed two wireless operators in the congregation. As Rev. Isaiah W. Sneath preached, his sermon was flashed through the air to the far corners of New England.

Pastor Sneath follows in the footsteps of Dr. Clayton B. Wells, of Wichita, Kas., who some months ago began preaching regularly by wireless to 1100 amateur operators in 11 states.

It requires no great vision to picture the day when the wireless may make the whole world one vast church with the sky for a roof.

The idea would be especially valuable in rural districts. In stormy weather, farmers unable to get to church might have the church brought to them through the wireless outfits which many are installing to receive the daily weather forecasts and crop news flashed by wireless telephony from the Department of Agriculture.

## EQUAL CHANCE FOR ALL

Greenville, Tenn., has a main street two miles long. At one end, over a little one-story frame house, is a sign reading, "A Johnson, Tailor."

At the other end of the street is a marble monument bearing the inscription, "A. Johnson, President."

"A. Johnson, was the Andrew Johnson who became president when Abraham Lincoln was assassinated."

The two signs in Greenville, Tenn., again bring home the fact that America is a land of equal opportunity. While chance may play a big part in your life a humble beginning does not bar you from the White House or any other top-notch leadership—political, scientific, industrial or financial.

We make tailors into presidents in this country, and poor bookkeepers into John D. Rockefeller—because we have no caste system.

If you have "the goods" in you, you can become a leader.

## HOW TO GET RICH

How can you get rich? Thousands of ways. You've given thought to many of them. And probably, at some time or other, you've tried to invent something as a short-cut to wealth.

Trouble is, most folks try to invent something complicated.

The simple things are most in demand. Many big fortunes have been founded on them. For instance:

A husband got tired of searching under the bureau for his wife's lost hairpins. So he crimped the wires of the hairpins to keep them from falling out of her hair. The idea worked. He built a business around it. Today every woman uses his invention.

Another fellow lived in the days when all screws were flat at the end, when a hole had to be drilled before the screw could be used. He sent to Washington the shortest patent application on record: "I claim a patent on a screw with gimlet point."

That patent made him rich. Millions of screws, based on it, are now used every day.

Great fortunes grew out of the safety pin, removable collar button, sharpened nail, key ring and rubber pencil tip. This latter was devised by an office clerk who tied his eraser to his pencil so he wouldn't have to reach for it.

Can you invent a metal tip that won't pull off shoe laces?

Or some way of fastening French heels to women's shoes so they won't come loose?

Or a wrench that will handle big pipe without crushing it?

Or a simple device to do easily anything else now difficult?

If so, you can virtually name your own price.

## THE BREAKDOWN OF CITY MORALE

Sixty-five policemen shot to death in American cities in the past 12 months!

That is the terrible record which brands us as the most lawless people in the world.

We haven't the exact figures at hand, but feel safe in saying that this figure 65 can't be matched by the total killings of officers of the law in all the other so-called civilized nations.

It isn't that a policeman's life is any more or less valuable than that of the average citizen, that their killing by wholesale is so shocking.

It is that each one of these murders is in essence an attack against organized society and those who are chosen to uphold it.

Most of these murders occur in the larger cities,

which we point to with pride as the fine fruit of our democratic civilization.

Fine fruit, indeed!

The condition in the average American city today, judged by what we read in the newspapers, which is a fairly accurate reflection of life in them, raises the question as to whether we are capable of self-government.

There may be half a dozen cities in the United States of over 50,000 people so managed that those who live in them may be proud of the fact.

We confess that we can't name them.

And the tragedy of it is, conditions of life from the standpoint of safety and comfort for the average man, woman and child are getting worse instead of better.

The great American failure up to now is in municipal government.

It is done better almost everywhere else in the world.

The murders of policemen are simply a symptom of the breaking down of city morale.

There are innumerable other systems, but this is the one which at the moment is thrown into relief and challenges our attention.

## WHY THE OLD COW DIED

The railway executives are kept busy explaining why, in spite of increased rates and government guarantee money, the railroads are slipping farther and farther in the hole. Some of their explanations sound like the speech of the rural lawyer in the justice of the peace court.

"Your Honor," he declaimed, "if the train had been running as she should have been ran; if the bell had been rung as it should have been rang; if the whistle had been blown, as it should have been blown; both of which they did neither, the cow would not have been injured when she was killed."

Don't get puffed up because Germany sends indemnity proposals through Washington. Her bids would have been forwarded via Yap or Siam if those countries instead of Uncle Sam had cornered the world's gold.

Charles F. Bush bristles up and tells the American Philosophical Society that he doubts the Einstein Theory. Brush brushes Einstein aside with arguments almost as easily understood as Einstein's.

New York has a new law, making it a misdemeanor for landlords to bar children. This will get a chuckle out of every parent who prefers children to dogs and pet monkeys.

It appears that strikes and lockouts may develop from the disagreement between the German Economics Union and the Allied Employers' Association.

A Dane "breaks the bank" at Monte Carlo. That won't worry the bank. The Dane, like all gamblers, will return to get his wings singed.

As the strawberry shortcake season draws to a close, have you noticed that none of them were like the ones Mother used to make?

The City of Happiness is in the State of Mind.

## WAR "IMPOSSIBLE"

Earl Grey, speaking recently at a dinner given by the National Liberal Club at Manchester, England, discussed the relations between Great Britain and the United States. "There would be little pleasure or interest in living in this world," he remarked, "if there were war between England and the United States." He continued:

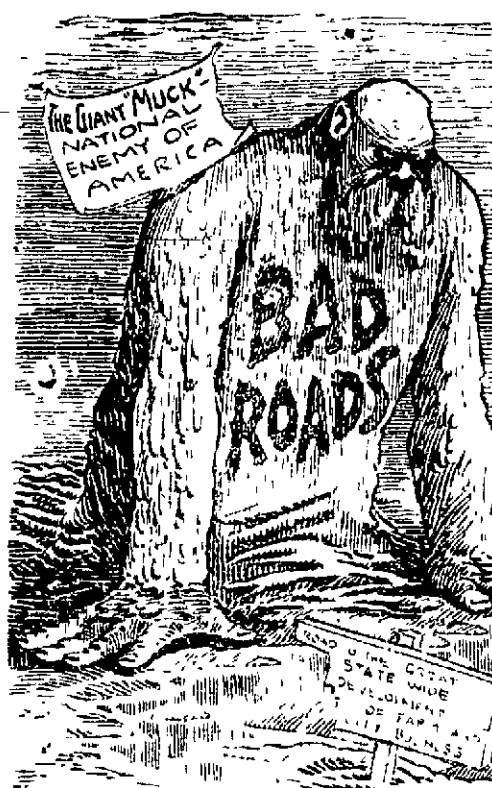

"I do not believe that there will be real cordiality between this country and the United States so long as the Irish question remains as it is. It is really idle to discuss British-American relations without having that fact in our minds and also recognizing it."

"Neither do we dispose of the question of war between this country and the United States by merely calling it unthinkable and inconceivable. I would much rather that people, especially in the United States, where they have been discussing this question as 'unthinkable and inconceivable,' would bring out the plain fact that we have a peace treaty with the United States which, if observed, makes war practically impossible."

"We have a treaty under which if the two governments cannot agree, they resort to a commission, to investigate and report and recommend a settlement, and at least a year's time must elapse for reflection before a breach of the peace can take place. I do not believe that those two great democracies can ever go to war if they observe this treaty."—Kansas City Star.

## NO INFLATED LAND PRICES

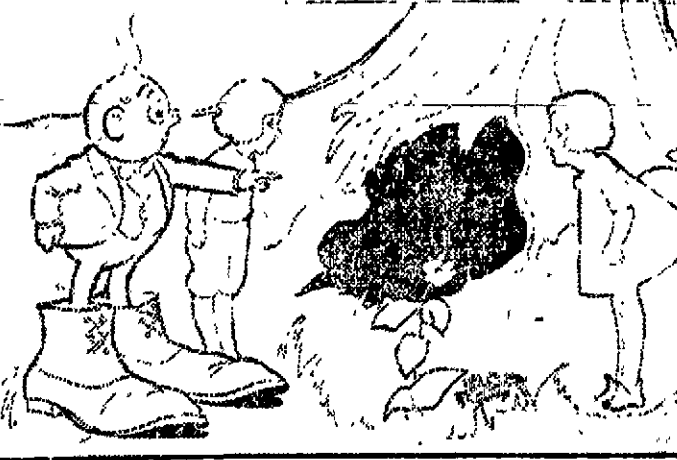

When it comes to figuring the costs of operation, the farmers of this state have a decided advantage over the tillers of Iowa soil. In this state it does not take more than a bushel or two of wheat per acre to take care of the interest on the investment, but where land sells for \$400 or \$500 per acre, as it does in the Hawkeye state, it keeps an average grain crop busy to take care of that item alone, to say nothing about other operating costs.—Williston Herald.

The above cut is a reproduction of the unusual exhibit of the North Dakota Good Roads Association, placed in Breslow's window this week in conjunction with the "Know Bismarck Week" to urge interest of Bismarck people in good roads for the betterment of the city and state.

## ADVENTURES OF THE TWINS

By Olive Barton Roberts

"Here's the place!" said the fairyman.

Flippety-Flap took a big step in his magic shoes and landed half way up a mountain. Nancy and Nick could never have followed him had they not possessed their own wonderful Green Shoes. But they scrambled up beside him as easy as pie. They were going to ask Mr. Bruin Brown-Bear and his wife, and their two sons, Butter-Ball Brown-Bear and Billy-Bunch Brown-Bear, to go back with them to the circus. Everybody, I'm sure, feels precisely the same way as our little friends did about it. The circus without a bear or two or three or four, isn't worth looking at. "Here's the place!" said the fairyman, pointing to a cubbyhole under a tree root. It was a very large tree with very large roots, and the hole was too large really to be called a cubby-hole. Indeed, it was a cub-hole, as it held two cubs, and their parents also, when the entire family was at home. "Tap, tap, tap," knocked Flippety Flap. No one came. Nick grabbed the knocker. "Tap, tap, tap." "Rat-a-tap-tap, tap," she thumped. But no one came. "Let's go in," she said. "There's nobody at home, and we may as well wait inside." "Yes, let's!" agreed the fairyman. "Just like Goldilocks did in the story, only that was three bears instead of four and we are three people instead of one. Besides, I hope we don't sit the bottom out of anything like she did. They mightn't like it." Nancy added with a laugh, "And I hope they won't chase us out of a window, either." (Copyright, 1921, N. E. A.)

## THERE'S NOTHING LIKE PORTABLE HOUSE

BY E. E. FREE

In shallow pools along the sea beach lives a little creature who is the most successful living solver of the housing problem. If you look down for a few minutes into the tangle of seaweeds, anemones, starfish, urchins and other creatures such as all these, you will notice presently one of the ever-present small shells begin to move off much more rapidly than his dignity would ever permit a snail to move. And if you look closely you will see coming out of the front end of the active shell a few assorted feet and claws with maybe a bright eye or two as well. This is our enterprising friend, the hermit crab, and the shell isn't a shell any more. It is his crab-shell house. His Main Virtue. Snails are patient and industrious. They build their houses slowly and solidly and no doubt with what to snaildom are the latest modern improvements. But this is too slow for the crab. He is a speculator. He knows that lots of things happen to patient simple folks like snails and he waits around. Presently a starfish or a sea urchin mone extracts a snail and dines on him and the house is left to lot. This is where the crab gets busy. Without bothering for legal processes he appropriates the house that Mr. Snail has had to leave behind him, and henceforth the nine points of law which belong to the possessor have changed their master. The crab drags his house along with him wherever he goes. When danger threatens, as when you reach down to pick up him and his house, he disappears as quickly as an eye-wink.

tone up weak, inactive, sluggish kidneys and help rid the blood of poisons, which cause many of the aches and pains in arms and legs, backache, rheumatic pains, sore muscles, stiff or swollen joints.

Dr. J. C. Foley, of Ash Grove, N.J., writes: "My back caused me a great deal of trouble for some time. I tried many different remedies, but all were due to the condition of my kidneys. One bottle of Foley Kidney Pills completely relieved me. The pains left me back. I recommend Foley Kidney Pills to my friends."

## POETS' CORNER

"LIFE"  
(By Lena O. Sheptenko)  
Life is a school of education,  
Always work and no vacation  
Some people bear burdens hard and strong  
Others live in ease and song  
Some people shed tears and feel so sad  
While others laugh and are so glad  
Some people labor for joy, with strife,  
And others work to take it from life  
Some people strive to make the world better,  
While others live beneath the fetter  
But rich, poor, great, and small,  
One great thing over all  
Life is only an empty dream  
Not at all as it may seem  
It is only a school for education,  
Our term is life's examination!

THOMAS McAULIFFE HAS NO ARMS, YET HE IS GOLD MARVEL AND AN ENTHUSIAST

**THOMAS McAULIFFE, ARMLESS GOLF STAR, TEEING OFF. INSET OF HIS "SIG" HE WROTE IT HOLDING PEN BETWEEN HIS TEETH**

By Newspaper Enterprise.

Buffalo, N. Y., May 4. Tom McAuliffe, minus both arms, claims the golf championship of the world in competition with any golfer similarly handicapped.

He drives the ball far and accurately.

He does the Buffalo Country Club links in 108. He makes the course at City Park in 98.

How does he do it?

Sometimes he holds the golf club in his mouth.

Or else he holds the club between the stump of his arm, letting the handle rest in his arm pit.

McAuliffe makes clever and phenomenal shots either way.

In match games he defeats Buffalo's Clevett golfers.

"I guess the keynote of my success is due to perseverance," says McAuliffe. "I seem to have a mania to overcome obstacles."

Perseverance and determination in golf.

With these three assets combined one can seldom fail.

When McAuliffe was a child he fell in front of a moving street car.

Both of his arms were cut off. The stumps had to be amputated at the shoulders.

Thus handicapped for life his father enlisted in him the determination to fight against odds.

His early education became his fondest wish.

At school he went in for all kinds of athletics just like the other boys.

He took part in running, football, skating and even baseball.

On the ball club he was a substitute base runner.

He graduated from high school and took a two year course at the University of Michigan.

His way through the university was earned by caddying on the golf links.

As a boy of 10 he had learned the "instincts" of a real caddy, his home being but a short way from the links.

Because he didn't have hands like other caddies to make change for his customers his earnings on the links were minuscule.

But all the time he was studying and practicing golf himself.

He graduated from a caddy into a golf instructor.

Today McAuliffe is 24. He is married and has a baby boy one year old. He owns his own home and an automobile.

He is engaged in the mercantile business and making a success.

He writes his own letters, either using a pen, which he holds between his teeth or else he runs a typewriter by punching the keys with a pointed held in his mouth. He can type to 50 words a minute.

Every day he goes to the golf links. For he's the armless champion of the world and wants to be in shape at all times to defend his title.

OLD AND NEW MINSTRELSY SHOWN IN CONTRAST IN BIG ELKS SHOW

Opening with a touch of real old time minstrelsy, then followed by an olio of clever vaudeville and musical comedy, acts and closing with a modern and up-to-date minstrel setting with about seventy singers, dancers, comedians and musicians on the stage; the Bismarck Elks will present one of the biggest minstrel shows ever seen in the west at the Auditorium on Friday and Saturday nights of this week.

In the vaudeville part of the program the feature comedy act will be "Somewhere in France," a military travesty presented by Bob Webb and Wm. C. Paulson. George Russ will appear as Prof. De Kakale, the famous impersonator from the Alhambra theater, London. The musical comedy act will feature Misses Beatrice McQuillan, Imogene McLean, Grace Frasier, Lillian Boelke, Bernice Landers, Helen Holland and Mrs. H. H. Light. Assisting them will be Messrs. Harry Berstein, Albert Brunner, Neil Omay, Archie McPhee, Earl Nordlund, V. C. Goddard, and Lloyd Harris. This act is along song and dance lines and promises to be one of the big features of the show. Clint Draper, the director of the show, will present a lively singing and dancing act in black face. A big feature of the show will be the local jokes by the endmen, who were taken through that part of the program by Sam Clark at last night's rehearsal. Mr. Clark will officiate as inter-locutor in the modern minstrel act and Spencer Boise in the old time act. Arrangements have been made for a big orchestra to play the accompaniments for the singers and chorus and the Elks band will appear on the streets on both days of the show, when the minstrels will parade.

The sale of reserved seats will open at Harris and Co.'s tomorrow morning and from the number of tickets that have been sold by the members it is evident the Elks will play to crowded houses on both nights of their engagement.

COOPERATION TO HELP SOLVE THE LABOR PROBLEM

Wheat Belt States to Combine Employment Efforts

Close co-operation will be maintained by the states of the wheat belt, through state departments and the United States Department of Labor agents, in providing men for the 1921 harvest, John N. Hagan, commissioner of agriculture and labor, said today upon his return to Bismarck, following a conference of representatives of 11 states to the National Farm Labor Exchange in Kansas City, and subsequent trip to Washington.

Authority to open up additional employment offices in North Dakota during harvest time has been granted by representatives of the U. S. employment service, Mr. Hagan said. He plans to open special offices at Jamestown, Oakes and Devils Lake during that period, in addition to the offices at Fargo, Grand Forks, Bismarck and Minot.

Cut of 50 Per Cent.

Wages probably will be cut 50 per cent., Mr. Hagan said. "There was no agreement on wages, but this was the consensus of opinion. Last year Kansas fixed the wages at about 70 cents an hour and they feel they were slung."

Mr. Hagan thought wages would be 35 to 40 cents an hour. They could not go much lower, he said, because of the expenses involved in transportation with high railroad rates.

It is expected the U. S. department of labor will maintain an office in Aberdeen to help move labor from South Dakota harvest fields to North Dakota.

At Grange Hearing.

Mr. Hagan attended a hearing in Washington in which the question of modification of federal grain grades was up. He expressed the opinion that Secretary of Agriculture Wallace would grant a change as asked by representatives of Northwest states. He also attended a meeting of a congressional committee studying the question of grain futures.
